The Confederated Salish and Kootenai Tribes

- *Vision* -

The traditional principles and values that served our people in the past are imbedded in the many ways we serve and invest in our people and communities, in the way we have regained and restored our homelands and natural resources, in the ways we have built a self-sufficient society and economy, in the ways we govern our Reservation and represent ourselves to the rest of the world and in the ways we continue to preserve our rights to determine our own destiny.
